REQUEST FORMS MUST BE BROUGHT TO YOUR APPOINTMENT ALONG WITH YOUR MEDICARE CARD

+ Requires referral addressed to a cardiologist

This referral is not specific to Heart & Vascular

** Can only be referred by a cardiologist

TEST	WHAT IS THIS TEST?	WHAT DO YOU NEED?
ECG	<p>A simple recording of the electrical activity of the heart. The skin is prepared by rubbing or shaving so that recording dots can stick to the skin.</p> <p><i>Duration - 10 minutes</i></p>	No special preparation needed.
Echocardiogram	<p>An ultrasound image of the moving heart muscle is recorded by placing a probe on the chest wall.</p> <p><i>Duration - 40 minutes</i></p>	No special preparation needed.
Exercise Stress Echo	<p>An ultrasound image of the heart muscle is recorded before and after you exercise on a treadmill. The heart muscle image is then analysed for movement abnormalities. The skin is prepared by rubbing or shaving so that electrical impulses of the heart are also recorded during exercise.</p> <p><i>Duration - 40 minutes</i></p>	<p>Avoid large meals prior to the test.</p> <p>Please wear comfortable shoes and bring a towel.</p>
Dobutamine Stress Echo	<p>An ultrasound image of the heart muscle is recorded before and after and during an infusion of Dobutamine. Dobutamine is a medication given into the vein that is used to speed up and increase the contraction of the heart. The heart muscle image is then analysed for movement abnormalities. The skin is prepared by rubbing or shaving so that electrical impulses of the heart are also recorded during the medical infusion.</p> <p><i>Duration - 40 minutes</i></p>	No special preparation needed.
Holter Monitor	<p>An extended recording of the electrical activity of the heart. (24 hrs). 3 electrodes will be attached to the monitor, and then placed externally on the chest (after preparing the skin by either shaving or rubbing the skin with abrasive paper and/or an alcohol swab). You will not be able to bath or shower with the monitor on.</p> <p><i>The monitor will take 15 minutes to apply</i></p>	Please return the monitor the next day.
24 Hour BP Monitor	<p>The BP watch is fitted to the wrist. You will not be able to shower or bath with the monitor on. The monitor is programed to take blood pressure readings every 15 minutes for 24 hours.</p> <p><i>The monitor will take 15 minutes to apply</i></p>	Please return the monitor the next day.
Transoesophageal Echo	<p>An ultrasound image of the heart muscle is recorded from a probe that is swallowed.</p> <p><i>Duration - 50 minutes</i></p>	<p>Please do not eat or drink 5 hours prior to the test.</p> <p>You will be given some medication to make you feel drowsy prior to this.</p> <p>You will not be allowed to drive home.</p>
